

Human Bioarchaeology Toolkit

Our Human Bioarchaeology Toolkit provides you with the essential equipment for cleaning, recording, and cataloguing archaeological remains, and is an excellent resource for our Bioarchaeology field school. The toolkit costs £35 (GBP) and can be purchased on our website via the following link:

<http://www.harparchaeology.co.uk/field-schools/toolkits>

The toolkit includes:

- A set of digital, plastic, sliding callipers
- A selection of 3 wooden sculpting tools ideal for excavating and cleaning
- Five bamboo skewers for excavating and cleaning remains
- A selection of 3 brushes of different sizes to be used during excavation and cleaning of remains
- A small air puffer for excavating and cleaning remains
- A soft tape measure for measuring material and remains
- Two small photo scales to be used for artefact photography
- An A6, bound notebook
- White Tack for holding artefacts during photography
- A black Sharpie
- A black Bic Biro
- A 4H pencil
- An eraser
- A pencil sharpener
- Pencil case to store your equipment
